## HEALTH SYSTEMS INTERNATIONAL EXPANDS EXCLUSIVE OFFERINGS THROUGH ACQUISITION OF TRUE COURSE

**Indianapolis, Indiana. - April 6, 2011.** Health Systems International today announced the acquisition of True Course Medical Data Analysis & Claims Services, LLC. True Course, based in Milwaukee, Wisconsin, is a data informatics and claims services company. It provides high quality medical data analysis and supportive claim services in Illinois and Wisconsin. True Course is at the forefront of workers' compensation medical fee schedule development and offers the most comprehensive set of certified databases in Wisconsin. The acquisition further expands the exclusive technology and business offerings of Health Systems International.

"Medical costs are the fastest rising component of workers' compensation programs," says **Glen Boyle, President of True Course**. "The integration of True Course with Health Systems International allows us to deliver a full suite of medical cost management solutions to our current and prospective clients."

**John Ansay, EVP and Co-founder of Health Systems International**, stated, "True Course brings an exceptional and immediate benefit to Health Systems International's Wisconsin and Illinois clients by delivering expert advice and an exclusive certified data base to optimize medical savings."

**Jeff Brand, President, Network Solution for Health Systems International** further added, "The key to maximizing savings in workers' compensation is partnering with experts who offer a full understanding of ALL the components necessary to achieve maximum savings results such as fee schedules, medical services, and payment systems -- True Course is that partner."

The acquisition was completed on March 31, 2011. True Course will maintain its office in the greater Milwaukee, Wisconsin area. Health Systems International will continue to expand service offerings through the acquisition.

### About Health Systems International

Health Systems International provides medical cost management solutions to healthcare payors in multiple markets throughout the world. The company connects clients to the lowest possible cost of care utilizing advanced technology, customized solutions, exclusive offerings, and personalized service to drive optimal savings and reduce administrative demands.

Health Systems International has been named one of Indiana's fastest growing companies for 2 years running.

### About True Course

True Course provides medical data analysis, medical bill review, and claim services, as well as medical fee schedule development to a growing number of payors in the workers' compensation market.
